OTHERS
4-12 weeks of manual effort from client searching historical data to identify eligible projects, prepare time estimates, and write reports.

"**Boast** enabled our executive team to focus on building our business instead of chasing SR&ED. They saved us countless hours of pain, guiding us through the process and putting together everything. We received 100% of our claim with minimal headache, including a full audit. **Highly recommend** every tech CEO take a close look."

-JASON SMITH, CEO, KLUE
